Karuna Karma Soul & DNA healing is a healing energy that assists us in awakening to Universal compassion. Many of us are compassionate individuals but however some of us find it more challenging to have compassion for ourselves than for others. This causes us to resist our true unity with the Divine. Karuna helps us shine light into those areas of our being where we hold judgments, criticism and less than loving thoughts about ourselves, others, or world situations.

Karuna enhances our ability to see everyone through the eyes of the Divine; as a parent sees a beloved child. When we are able to do this, having compassion is a natural way to be.

Universal or unconditional Compassion is a stream of consciousness, as is Universal Love. Consciousness itself vibrates only as it is affected by energy. While compassion is the desire to alleviate another as suffering, Universal compassion assists in the alleviation of the illusion of suffering for all beings. Compassion is a state of consciousness, which when combined with energy, has great transformational power.

In the process of healing, it is important that we learn to fully understand that there is a Divine plan for all of creation, and that we are each a perfect part of that plan.
As we move more clearly into an understanding of the blueprint for our souls, and we use our personal energy every day in creative, positive and loving ways, we align more clearly with the Universal Divine plan.

The energetic essence of the Karuna symbols help us develop an awareness of parts of our personality that have been blocking us, or perhaps causing us to doubt our inner guidance. They also help us to accept, love, and heal those shadows within our personality.

Karuna Soul & DNA Healing is the energy of compassion in action, so it teaches us to have more compassion for others, but also for ourselves, It helps us harmonize the upper and lower chakras, so when we do discern the guidance and wisdom from the Divine, we can move it into the physical realm for manifestation.

Karuna healing also has the ability to help us merge our higher self with our lower self, as we can become our God self in our daily lives.

As we grow more aware of our Divine self, we are more creative and able to act on guidance we receive. We are also empowered to heal co-dependent behaviors, develop reality awareness and become clearer healing channels.

Imagine living on the earth with all people functioning as their God self in every moment!

One of the most powerful frequencies in Karuna healing helps us develop a complete trust in life, and in our Divine Guidance. This is so important for our growth as individuals and our evolution as a species. Trust in the Divine is absolutely essential, for when we have this trust, there is no fear, and when there is no fear, there can only be peace.

When we are without fear we can follow the guidance we receive, even when it asks us to make sacrifices and let go of things we perceive to be very important to us. We can do this because we trust that the Divine has a bigger and better plan for us than we may be aware of in the moment.

Karuna Soul Healing can help us understand that we are always precisely where we need to be on our life's path, and to accept all of our experiences and actions as an integral part of who we are. When we learn to accept ourselves with true compassion and love, we begin to honor even those parts of ourselves that we may have felt shame for in the past.

When we walk toward the light, the shadows disappear. So it is with Karuna Healing….. by shining light into the shadows of our being. ….. we heal…. Universal Compassion.

A beauty of Karuna Soul & DNA Healing is that when major healing issues arise they can be acknowledged, processed and healed in a matter of moments because they are dealt with in their fundamental energetic form. Therefore, when it is appropriate, Karuna Soul Healing brings about deep emotional healing without the recipient having to re-live an unpleasant life situation or have an intense emotional experience.

When we receive Karuna Soul Healing it seems to touch the issue to be healed, lift the energetic essence of the issue to the surface, and then with the recipient's permission it is transformed into pure light and released.
